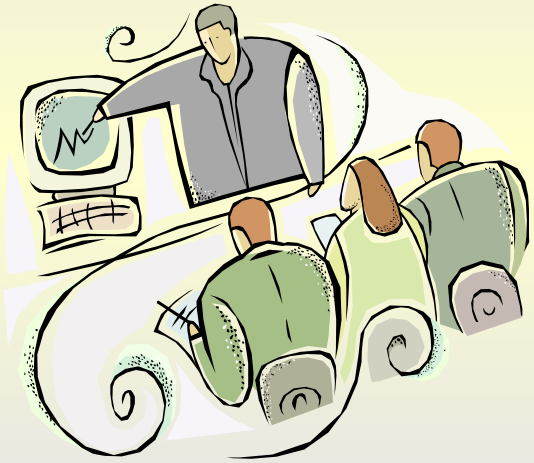
Electronic Document Access (EDA)

Contract Manual Upload



“Fly-in” Action

(Continue to Page Down/Click on each page…)

Manual Upload Capability

- Ability to *Upload* Base Contract Documents
- Ability to *Upload* Mods/Delivery Orders/Task Order Documents
- Ability to *Inactivate* and *Replace* Base Contract Documents
- Ability to *Inactivate* and *Replace* Mods/DO/TO Documents
- Ability to *Upload* a Mod/DO/TO without a Base Contract
- Upload capability isolated to individuals by Role & Issue DoDAAC(s). EDA POC grants Special Role to user.
- Conversion of Microsoft word documents (.doc) and Adobe post script files (.ps) to PDF
- Upload to on
alternate site.

Manual Upload Business Rules & Mechanics…

Manual Upload Business Rules

- Only Authorized Users with the Upload Role w/valid "Issue" DoDAAC(s) can upload contract documents to EDA
- All uploaded documents are scanned for virus *(if infected, the document will not be accepted. EDA does not fix a virus)*
- Accepts PDF file formats
- Converts Microsoft word documents (.doc) and Adobe postscript files (.ps) to PDF *(all other file types are invalid for conversion)*
- The conversion process does not retain/store the original form/file type of the document
- Conversion of files occurs "near real-time" *(May need to wait)*
- Converted PDF is placed on the EDA document server
- Accepts any size file, EDA has no file size limitation

Upload Business Rules - Cont

- Special Upload/Inactivate role is granted via organizations EDA POC
- EDA POCs must have Upload/Inactivate role to delegate role to lower levels of an organization
- Document inactivation activity triggers e-mail notifications to:
  - DFAS *(based on Pay DoDAAC)*
  - All Contract Load Notification List members, *if lists exists* prior to "Inactivation event"
- Document Upload and Replacement activity triggers the Daily EDA Load Reports
  - All Contract Load Notification List members, *if lists exists* prior to "Upload and/or Replacement event" will be notified by e-

To Obtain the Upload/Inactivate Role…

To Obtain Upload/Inactivate Role

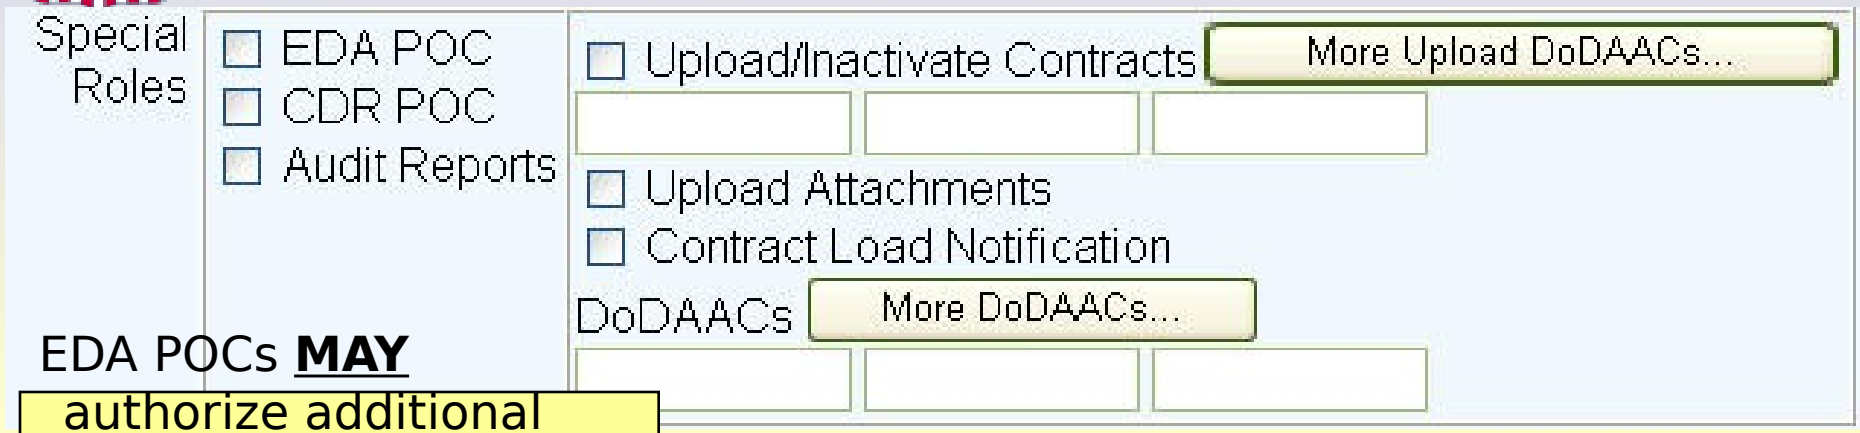
Request Contract Upload/Inactivate/Replace Role by contacting your EDA POC. Supply "Issue" DoDAAC(s)
(EDA POC will verify need of special role)

Note: To delegate/apply the Upload/Inactivate role to users in lower organizational levels within the C/S/A, the authority level accounts *(EDA POC/Executives)* require the Upload/Inactivate role on their own user accounts. Must have role to 'delegate' role. See Help/Training option on the WAWF eBusiness Home Page for EDA User Registration and Administration Instructions.

EDA POC validates request and logs into EDA and performs maintenance on an account. *('checks' Upload/Inactivate Role, enters Issue DoDAAC(s) and processes/confirms updates).*

EDA POC Grants Special Role to User…

EDA POC 'toggles' Special Role



EDA POCs **MAY** authorize additional special roles for users in their community.

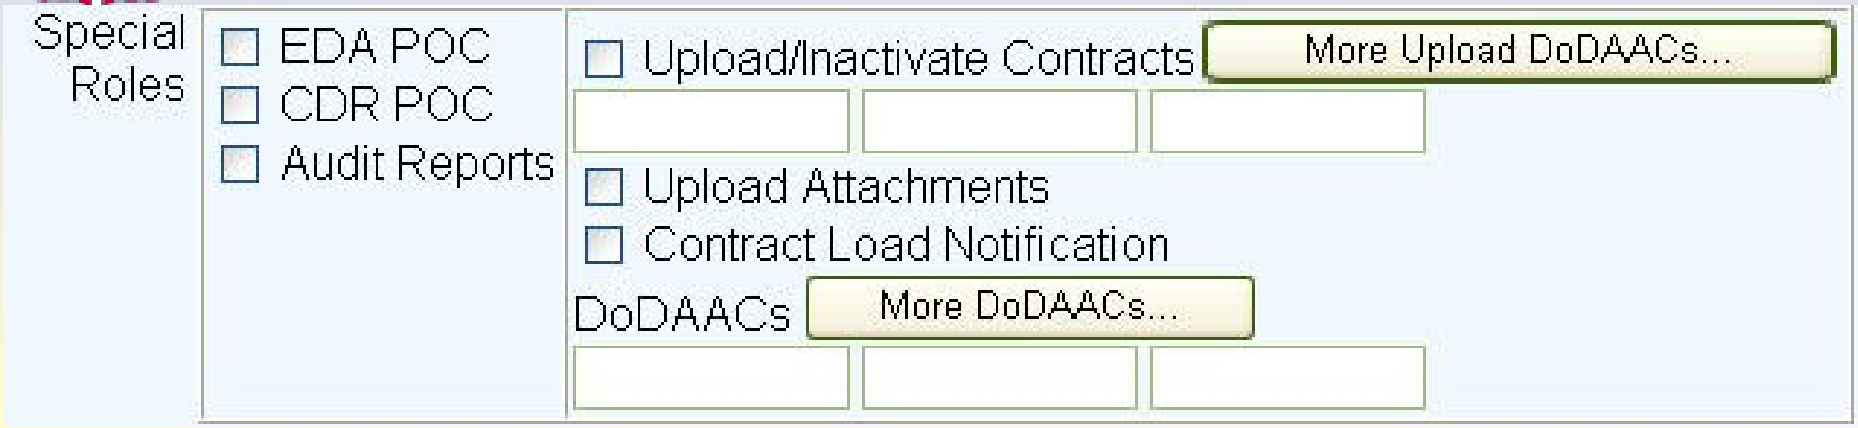
EDA POCs **MUST** have the Upload/Inactivate Documents Role on their *own* user accounts in order to *delegate* to their community.

EDA POCs obtain the role by requesting it from their C/S/A Executives

To activate special roles, Check the corresponding checkboxes and provide DoDAACs if required

Definition: *Need-to-Know* – The principle by which users are only granted access to the information, assets, and resources necessary to perform their assigned job functions.

EDA POC 'toggles' on Upload



If EDA POC doesn't see
Upload/Inactivate Documents entry area to grant role on the User Account screen…

The **Upload/Inactivate Role** has not been granted to the ***EDA POC*** user account

Contact your EDA POC or EDA Executive for assistance in granting the role.

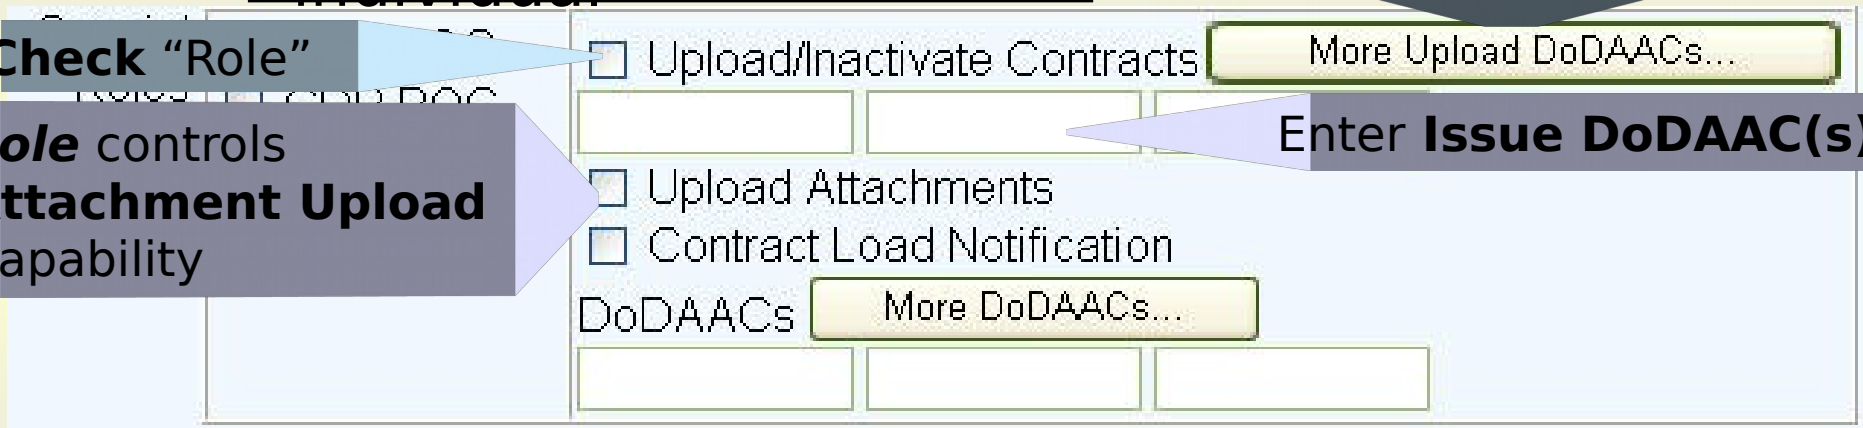
DoDAACs Required for Role

EDA POC may check roles required for individual

Click **"More Upload DoDAACs"** For additional entry boxes

Check "Role"

Role controls **Attachment Upload** Capability



Enter **Issue DoDAAC(s)**

User's functionality is restricted to specific **Issue** DoDAACs.

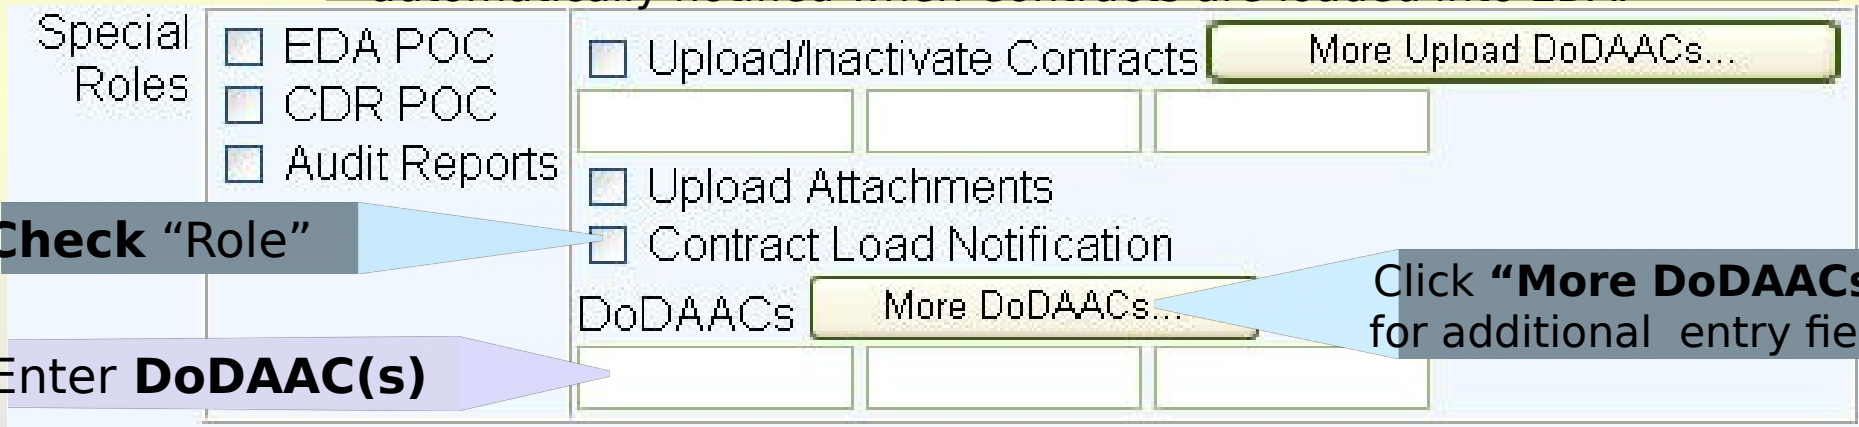
Consider Contract Notification List Role…

Consider Contract Notification

If Granting Upload/Inactivate Role…

Consider granting Contract Notification list as well.

The Contract Load Notification capability allows authorized users to create a "Notification List" of e-mail addresses that are automatically notified when Contracts are loaded into EDA.



Contract Load Notification functionality is restricted to specific ***Issue*** and/or ***Admin DoDAACs.***

Review Training Module on Contract Load Notification…

After Upload Role Granted

To Upload a Base Contract, a Contract Modification, a Contract Delivery Order or Task Order

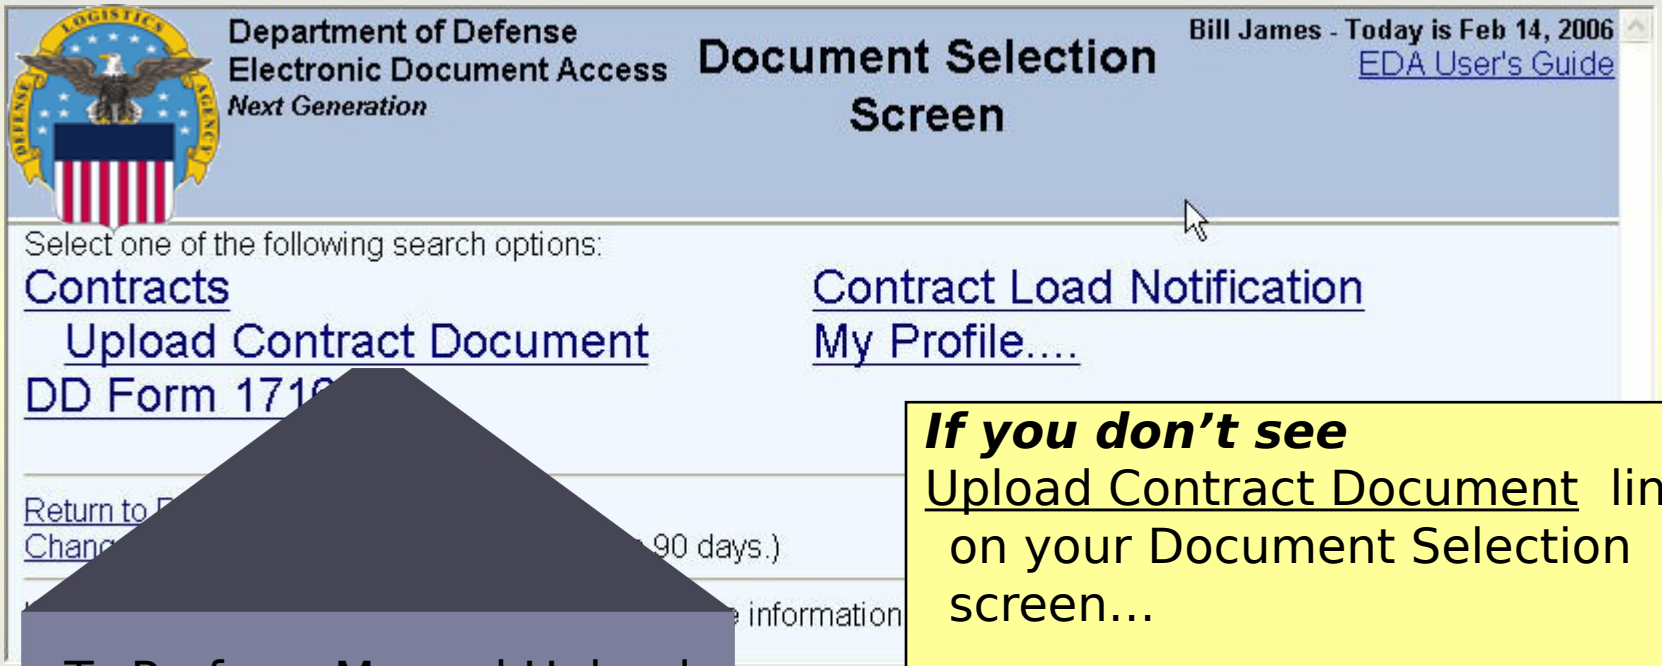
- Log into EDA
  - (http://eda.ogden.disa.mil) or
  - (http://eda.cols.disa.mil)

Note – EDA Server's replicate data constantly, therefore, stay at one site during upload activity. Do not repeat upload at alternate site.

- Two methods are available to upload

To Begin the Upload Process…

To Upload a Contract



To Perform Manual Upload

CLICK

"Upload Contract Document"

on the Document Selection

If you don't see

Upload Contract Document link on your Document Selection screen...

The **Upload/Inactivate Role** has not been granted to your EDA user account

Contact your EDA POC for assistance in granting the role.

New Contract or Already Loaded?

EDA offers two mechanisms to perform the Manual Contract Upload function

1) If *New* Contract Document to EDA…

- Click *Upload Contract Document* Link on the Document Selection Screen

2) If Contract Document Already Loaded in EDA…

- Click *Contracts* Link on the Document Selection Screen
- Query Contracts using any Contract Search Option
- Query Result page is presented with additional upload interface capabilities (links) based on user

Difference in the Two Options

Based on the ***existence*** or ***non-existence*** of a Contract Index within EDA, the interface offers the upload user additional options and assists in field pre-population *(if applicable)*.

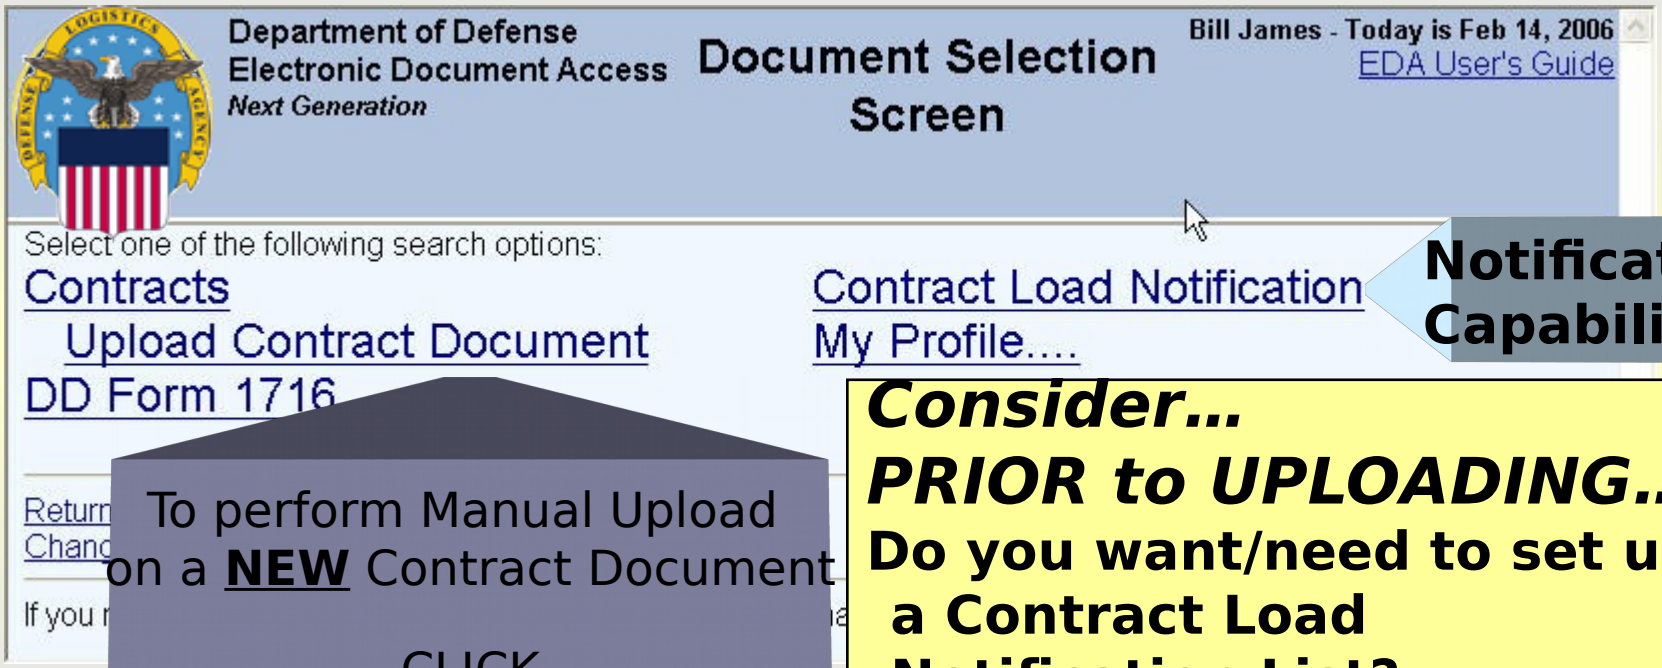
If the "Base" Contract Index Already Exists in EDA…

The Query Result page is presented with additional interface options

- Upload a Mod/DO/TO to an existing contract
- Inactivate an Existing Document (Base, Mod, DO or TO)
- Replace a Document (Base, Mod, DO or TO)
  (Document Replacement is only allowed to be performed on inactivated documents)

Upload a New Contract to EDA

For a ***New* Contract Document**



Consider…
PRIOR to UPLOADING…

Do you want/need to set up a Contract Load Notification List?

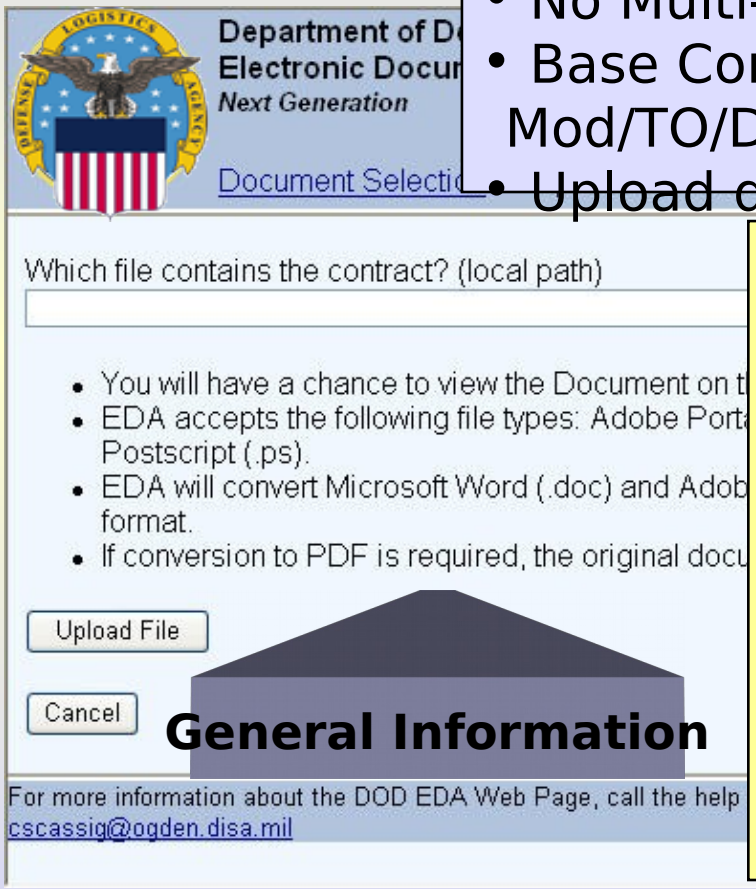
List must exist ***prior*** to "Load Event" to send notification.

Refer to the Contract Load Notification Training Module…

Begin the Upload Process…

Technical Details

- No file size limitation, No timeouts
- No Multi-part documents upload
- Base Contract not required to upload Mod/TO/DO
- Upload document at only one EDA site



Upload process:

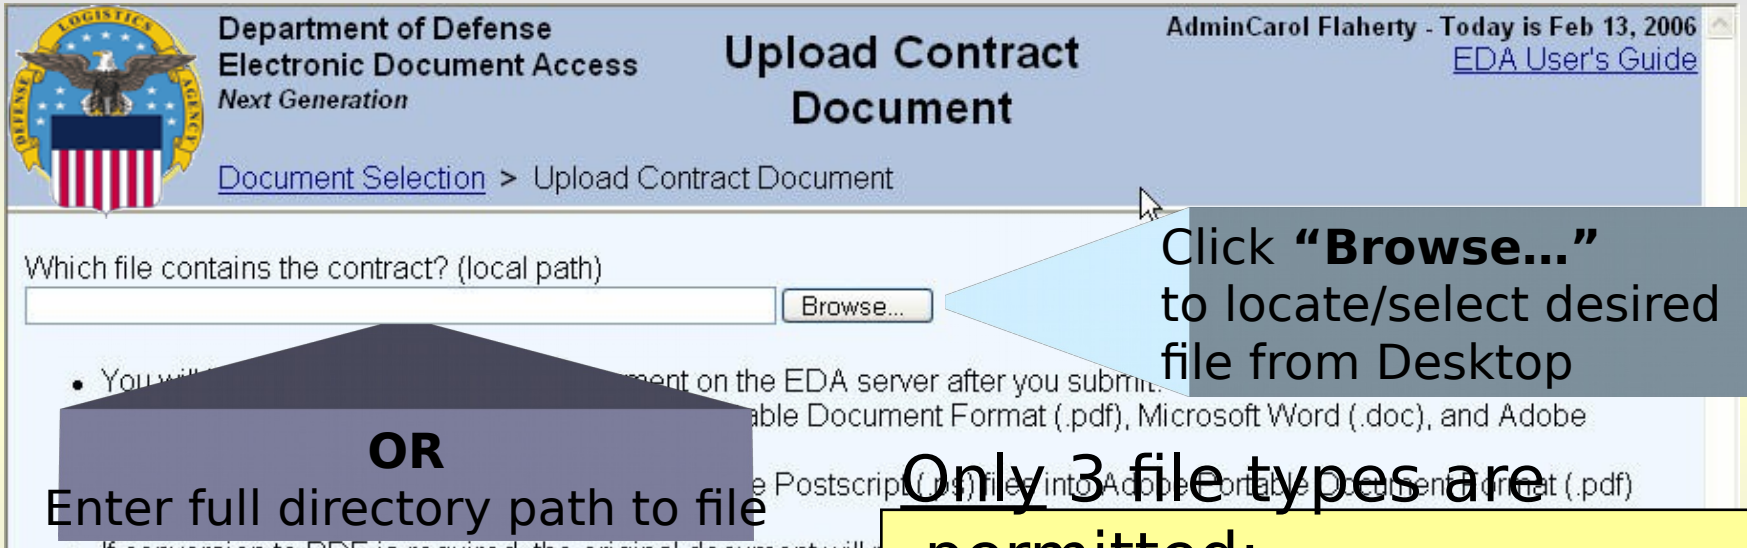
All documents are scanned for virus. If infected, EDA errors and rejects the document.

If virus-free, the document types of .doc and .ps. are converted to PDF ("near" real-time). *(May need to wait for conversion)*

After successful conversion, the .pdf is stored on EDA's Document server.

Locate desired document for upload…

Mechanics of Upload



Click **"Browse…"** to locate/select desired file from Desktop

Note: The conversion process does not store/retain the original form of the document.

Conversion is accomplished in "near real-time".

Do **NOT** repeat upload at alternate site. EDA replicates documents.

Only 3 file types are permitted:

- **.pdf**
- **.doc (Microsoft Word)**
- **.ps (Adobe postscript)**

EDA will convert .doc & .ps to .pdf

EDA presents an error message for invalid file types during

Browse/Select file to be Uploaded
